Esther Recio

Backend Developer · C# · .NET · Kafka · AWS

Brasília, DF | esther.recio47@gmail.com | linkedin.com/in/estherrecio | github.com/recioes | lattes.cnpq.br/0571310526367628

SUMMARY

Backend developer at Zenvia, building high-volume services in C# and .NET (APIs, workers, microservices and messaging). Moved from internship straight to Junior Dev. Degrees in Business Administration and in Systems Analysis and Development: I combine business perspective with engineering, with a focus on reliability, observability and security.

TECHNICAL SKILLS

Languages, frameworks and AI: C#, .NET, Claude Code (AI agents)
Messaging and data: Apache Kafka, Google Pub/Sub, Redis, MongoDB
Cloud and DevOps: AWS, Azure DevOps, AKS, YAML CI/CD pipelines
Quality, observability and security: xUnit, SonarQube, k6, Grafana, OWASP

PROFESSIONAL EXPERIENCE

Backend Developer · **Zenvia** Jun 2024 – Present

From internship straight to Junior Dev

- Migrated several applications from Google Pub/Sub to Apache Kafka: topics, consumers, DLQs and end-to-end validation.
- Migrated applications to AWS, with load testing and production readiness alongside the SRE team.
- Introduced Redis as a distributed cache in place of in-memory caching, across microservices.
- Led an observability initiative: Grafana alerts on Slack (Go templates), dashboards and trigger rules.
- Worked in a Security Champion-like role: fixed SSRF and vulnerable dependencies, following OWASP guidance.
- Took part in database migrations that cut roughly R$ 570k in infrastructure costs.

Backend Intern · **ClearSale** Aug 2023 – Jun 2024

Selected from ~12k applicants for 40 spots

- REST APIs and BFFs in C#: maintenance, bug fixes and new endpoints.
- Unit tests with xUnit and quality analysis with SonarQube in CI/CD pipelines.
- YAML pipelines for PR and DEV environments, publishing to AKS.

Commercial Manager · **Americanas S.A.** Jun 2022 – Nov 2022

- Store and team management: treasury, hiring, terminations and Ame Digital sales targets.
- Interim general manager of the central Brasília store, one of the most important in the Federal District.

Customer Success Assistant (previously intern) · **Grupo Afinidade** Jan 2019 – Jun 2022

- Relationship with B2B health and dental plan customers; point of contact for one of the largest accounts (about R$ 100k per month).
- Department action plan using 5W2H and the GUT matrix; process mapping with Bizagi; temporary team supervision for three months.

Earlier: Administrative Assistant, Núcleo de Integração Social (NGO), 2019–2020 · Marketing Trainee, Firz Consultoria, 2018–2019 · Freelance English interpreter (Education USA Fair), 2017–2019.

EDUCATION

Systems Analysis and Development (technology degree) · UniCEUB. Final project graded SS (top mark). 2023 – 2025

Bachelor's in Business Administration · University of Brasília (UnB). Final project graded SS (top mark). 2017 – 2022

LANGUAGES

Portuguese (native) · Spanish (native) · English (fluent)

ACADEMIC ACTIVITIES

- Lead author of "Evolution of GSCM Research: A Bibliometric Review for 2018 to 2020" (in Portuguese), presented at GOOP (2021).
- Volunteer teaching assistant, Modern Political Theory (UnB, 2020); organizing committee, Business Administration Academic Week 2021.

GITHUB PROJECT

iHairCare Backend API (C#, ASP.NET Core, MongoDB, clean layered architecture, SOLID, Swagger): github.com/recioes/ihaircare.backend.app.
